

PURCHASE ORDER ATTACHMENT **P-28A (00)**

MATED PAIR GYRO MOTOR

PART NAME: Motor, Gyro Frameless

PART NUMBER: 657984-1, 260161-1

UNIT PACKAGE QUANTITY: Mated pair per unit container.

UNIT CONTAINER: Molded box halves, top and bottom, fabricated from polystyrene foam, with cavities. Foam box must meet the electrostatic decay rate specified in Mil-B-81705.

PACKAGING METHOD: Place one stator into a antistatic polyethylene bag, minimum thickness .0015. Place one rotor into a bag of same material. Place one mated pair, each into cavities of a unit container. Tape box halves together.

SHIPPING CONTAINER: Corrugated fiberboard box, domestic, RSC, of sufficient quality and strength to insure safe arrival of parts.

PACKING METHOD: Pack any number of unit containers into a shipping container. A maximum gross weight of 40 pounds is recommended but do not exceed weight limitations of container.

MARKING INSTRUCTIONS: Each unit container must be marked with RMSC part number and quantity. Unit containers are exempted from marking only if they hold one (1) part each and RMSC P/N is visible on part.

PALLETIZATION: If required, palletize with any standard pallet such that a stable, unitized, and stackable load is created. Fibreboard (cardboard) pallets with plastic cup feet are not allowed.

NOTE: To preserve the environment, Raytheon Missile Systems Company recommends that packaging materials which are manufactured from, and or, with CFC's (chlorofluorocarbons) not be used.

This attachment, with its terms and conditions, is an integral part of this purchase order.
