

PURCHASE ORDER ATTACHMENT P-76A (00)

VTRA #38295438

PART NAME: VTRA

PART NUMBER: 3829548-XXX

UNIT PACKAGE QUANTITY: One part per unit container.

WRAP: Anti-static polyethylene film which meets the static decay requirements per method 4046 of Federal Test Standard 101 (as referenced in Mil-B-81705).

UNIT CONTAINER: SMH802226, which is a cleated-plywood box, overseas type, style A, per PPP-B-601.

PACKAGING METHOD: Wrap part in anti-static polyethylene film, then heatseal part with 2 units of desiccant into a Mil-B-117, class F bag. Place bagged part on saddles in SMH802226 box. Close lid of box.

SHIPPING CONTAINER: Unit container is the shipping container.

PACKING METHOD: Place reinforcing bands of steel strapping around box with (3) bands girthwise over cleats.

MARKING INSTRUCTIONS: Mark each unit container with RMSC part name/number, purchase order number, and vendor's name/address. Attach fragile and "up" arrow labels.

PALLETIZATION: If required, palletize with any standard pallet such that a stable, unitized, and stackable load is created. Fibreboard (cardboard) pallets with plastic cup feet are not allowed.

NOTE: To preserve the environment, Raytheon Missile Systems Company recommends that packaging materials which are manufactured from, and or, with CFC's (chloroflorocarbons) not be used.

This attachment, with its terms and conditions, is an integral part of this purchase order.
